1. INDUSTRY DEVELOPMENTS

The global COVID-19 pandemic crisis we faced in the first quarter of 2020, has deeply affected the world and the aviation sector. Even there has been a loss in pace, the impact of the crisis still continues as of the end of the first quarter of 2021. Vaccine studies finally showed positive result in the later 2020 and the countries started to vaccinate their citizens afterward. During the period left behind, more than 1.08 billion doses vaccine have been administrated across 172 countries. This number corresponds to 14% of the world population. The increase in the number of vaccinated people will have a direct, positive impact on the world economics and the aviation sector. According to current data from Republic of Turkey Ministry of Health, 10.6% of Turkey population have been vaccinated with two doses and 5.8% of them have been vaccinated with one dose. It is also announced that the production of Russia's Sputnik V vaccine will start in Turkey. With this progress, it is expected that vaccine roll-out in Turkey will gather momentum.

While travel restrictions worldwide continues, Turkish Airlines has achieved to carry 6.4 million passengers in the first quarter of 2021. Along with that, according to the European Organization for the Safety of Air Navigation (Eurocontrol), Turkish Airlines was the airline with the highest number of the flights in Europe and İstanbul Airport has been recorded as the busiest airport in the first quarter of 2021.

Turkish Airlines partly compensates diminishing demand on the passenger side with a strong cargo transportation performance. Our Incorporation has made a significant contribution to the transportation of medical supplies in the combat against COVID-19 outbreak. The Incorporation has achieved to maintain its strong growth trend in the cargo market over the last decade and consequently, cargo revenue increased by 77% during the first quarter of 2021. Turkish Airlines takes firm steps forward to be one of the largest air cargo carriers in the world by increasing its market share in the global air cargo market.

11. INVESTMENTS, INCENTIVES AND INVESTMENT POLICIES

By the end of March 2021, the operation has been carried out by 106 double-aisle passenger aircraft, 231 single-aisle passenger aircraft and 25 cargo aircraft. Double-aisle aircraft constitute about 30% of the total number of aircraft in fleet. Due to the effect of stage length and seat capacity, contribution of wide body aircraft to the production is more than 50%.

As of 31 March 2021, two A350-900 type aircraft is received in 2021.

Decree on State Aids for Investments

In our country, “Investment Incentive System” is implemented to aim targets such as:

- Increasing production and employment,
- Increasing international direct investment,
- Reducing the regional development disparities,
- Encouraging strategic investments with regional and large-scaled investment which has high research-development content to increase international competitiveness,
- Directing savings to high value added investments in line with targets, foreseen in annual programs and development plans,
- Supporting research and development activities with clustering and environmental protection investments,

This system provides support to taxpayers when they guarantee the achievement of aforementioned targets. These supports are:

- Customs Duty Exemption,
- Value Added Tax Exemption,
- Tax Reduction (reduce corporate tax)
- Income Tax Withholding Support,
- Insurance Premium Employer Contribution Support,
- Insurance Premium Employee Contribution Support,
- Interest Rate Support,
- Investment Space Allocation,

Our Incorporation has right to benefit from some incentives in “Investment Incentive System” due to airline cargo and passenger transportation activities. As a result of the applications within this scope, Investment Incentive Certificates are obtained for supply of aircraft and ground handling services. The information on the Investment Incentive Certificates that may have an impact on the current or future financial reports of the Incorporation and the incentives utilized are listed below:

Date of Cabinet Decree	Number of Cabinet Decree	Date of Inv. Incentive Certificate	Investment Status	Tax Reduction	Total Amount of Investment TL: (*)	Utilized Contribution Amount of Investment TL: (**)
14.07.2009	2009/15199	28.12.2010	Completed	Tax Reduction %50 /	13,267,897,366	16,587,441

**BOARD ACTIVITY REPORT

(*) Because the investments are realized in foreign currency and revisions made on investments, the amount of investment at the time of application and the amount of investment at the time of completion may vary.

(**)The contribution amount of investment, which is not utilizable when there is no tax base, is transferrable by indexing with revaluation rate in accordance with the provisions of the relevant legislation.

12. PROJECTIONS ABOUT THE INCORPORATION

The Incorporation has decided to start operating scheduled flights, based on aircraft availability and market conditions to the cities Abha of Saudi Arabia, Juba of South Sudan, Aswan of Egypt, Makhachkala of Russia, Krakow of Poland, La Coruna of Spain, Lenkeran of Azerbaijan, Luanda of Angola, Nantes of France, Palermo of Italy, Port Sudan of Sudan, Newark of United States of America, Vancouver of Canada, Atyrau, Aktau and Turkistan of Kazakhstan, Sialkot of Pakistan, Urmia of Iran, Fergana and Urgench of Uzbekistan, and Hargeisa of Somalia. Our Incorporation plans to evaluate these new destination openings in line with market conditions.

Flying to more countries than any other airline in the world, the Incorporation aims to be among the leading airlines in the world by maintaining its steady growth in parallel to the growth in number of transfer passengers by providing wide-body fleet investments, capacity increases mainly in long-range flights and new routes. In the second quarter, passenger capacity is expected to reach 50-60% passenger capacity of the same period of 2019. The Incorporation is targeting to increase unit revenue through expansion of cargo operations. In addition, Turkish Airlines aims to be one of the largest air cargo carriers in the world by increasing its market share in the global air cargo market. As a member, Turkish Airlines adopts The International Air Transport Association's (IATA) targets which are aimed to reduce carbon emissions from aviation and works with dedication to achieve these targets.
