Income by Currency (2007)

Expenses by Currency (2007)

- ✦ THY's income is diversified among the major currencies
- ✦ Due to its currency basket THY is very flexible on fx position
- ✦ Although USD income is lower than USD expenses THY is able to cover its USD expenses from Euro income due to strong Euro against USD
- ✦ Same concept on USD/Euro is applicable to cover Turkish Lira expenses

Diversified revenue & expense base and agility in pricing currency

- ✦ As it is very well known and appreciated “Safety” is the key concept to be adopted for existence. THY is determined to operate with the highest operational standards. Accepting and implementing the standards dictated by the aviation authorities and manufacturers as the baseline, THY strives to attain safer operation conditions in respect to continuous development process and appreciates it as a must.
- ✦ Within the frame of this efforts, adoption of Safety Management System approach, implementation of Flight Data Monitoring (FDM) System, promotion of Voluntary Reporting System, introduction of Just Culture approach, trainings provided in risk assessed flight subjects and publications to flourish a widespread safety culture can be mentioned.
- ✦ In this context, it must be emphasized that THY is qualified as an IOSA operator after the IATA Operational Safety Audit as of April 07, 2006. In addition to the IOSA audit, due to its vast operation network, THY is in active contact with numerous Civil Aviation Authorities and subject to their audits as well as the audits of codeshared airlines. These audits, as well as providing the opportunity to the auditors to evaluate the current situation, input the required feedback for THY's safer operation from thereupon.
