**BOARD ACTIVITY REPORT
PURSUANT TO THE COMMUNIQUE SERIAL II. NO.14.1****1. INDUSTRY DEVELOPMENTS**

Despite the challenging operating environment in the aviation industry, Turkish Airlines continued its operations uninterrupted, thanks to its operational agility and highly qualified workforce maintained during the pandemic. In the first nine months of 2023, our Incorporation continued to grow, carrying 64 million passengers, exceeding the passenger count of the same period in 2019 by 13%. According to data published by airline data provider OAG while the global international passenger capacity in the first nine months of 2023 remained 13% behind that of 2019, Turkish Airlines surpassed its 2019 international passenger capacity by 27%, becoming one of the leading airlines in the sector. Moreover, as per the data from the European Organization for the Safety of Air Navigation (Eurocontrol), Turkish Airlines was the most frequent flyer among network carriers in Europe during the first nine months of 2023. In addition to operational success, Turkish Airlines continues to be at the forefront with its unique passenger experience, being awarded the “World Class” award for the third time by the Airline Passenger Experience Association (APEX) and the “Europe’s Best Airline” award for the eighth time by the international air transport rating organization, Skytrax.

As Türkiye’s national flag carrier, our Incorporation maintains its belief that we can collectively overcome the impacts of the largest earthquake disaster in our country's history. To support the region, humanitarian flights from both domestic and international locations were conducted free of charge for evacuation purposes, as well as to transport search and rescue teams, equipment and necessary aid materials. Between February 6 and May 31, 2023, 433,000 citizens, search and rescue teams were transported to the region. Additionally, 430,000 citizens were evacuated, and 36,000 tons of aid materials were sent to the disaster areas. Alongside a cash donation of 2 billion TL for the needs of the region, preparations began in coordination with our country's authorized institutions and organizations for building a Turkish Airlines residential area project comprising 1,000 houses to be established in the region. Furthermore, 1,000 individuals affected by the earthquake have been employed by our growing Incorporation, integrating them into the Turkish Airlines family.

Turkish Airlines aims to increase its international recognition and contribute to Türkiye’s tourism by expanding its extensive flight network through cooperation with foreign airlines. In line with these goals, our Incorporation signed collaboration agreements with China Eastern, Thai Airway and Indigo to strengthen its presence in the Far East region.

In the beginning of 2023, our Incorporation announced its 2033 strategic goals to the public, embracing a road map that transforms the post-pandemic recovery momentum into stable growth. This vision, aimed at generating high value for all stakeholders, demonstrates our determination to continue leading the sector by setting goals for doubling fleet and passenger numbers, achieving excellence in passenger experience, and focusing on digitalization and sustainability. By 2033, our Incorporation aims to increase its aircraft count to over 800, carry over 170 million passengers, and achieve revenues exceeding 50 billion USD.

Through SMARTIST, our high-tech mega cargo center at Istanbul Airport, one of the world’s largest hubs, and the unique breadth of Turkish Airlines' flight network, Turkish Cargo aims to further solidify its position among the world’s leading air cargo brands. According to data published by the International Air Transport Association (IATA), Turkish Cargo achieved the status of being one of the top three air cargo carriers globally in terms of freight ton kilometers transported in August.

The project will feature a total of 14,000 houses to be built in stages and the sales process will be managed by Emlak Konut Real Estate Investment Company. At least 3,000 of the houses will be sold to the employees of Turkish Airlines and its subsidiaries. Our Incorporation will determine the allocation of these houses through a lottery process.

Turkish Airline's Strategy and Targets for 2023-2033 Period

Growing significantly higher than the industry average over the last 20 years while having significant contributions to Türkiye's economy and labor market, Turkish Airlines is pleased to announce its strategic targets pertaining to the 100th year of its establishment.

Determined in line with our vision for 2033, the strategic focus areas that aim to generate significant value for our stakeholders are as follows:

- Achieving consolidated revenue of over 50 billion USD by 2033,
- Attaining an EBITDAR margin between 20% and 25% during 2023-2033,
- Improving efficiency, maintaining cost discipline and creating new opportunities to generate additional revenues in order to sustain our strong financial performance,
- Contributing 140 billion USD of added value to Türkiye's economy by 2033,
- Expanding our fleet to 435 aircraft by 2023 and to over 800 aircraft by 2033; growing our passenger network to 400 destinations,
- Doubling the passenger capacity in 2023 by 2033 with an annual average growth rate of 7%,
- Servicing 170 million passengers by 2033 compared to over 85 million in 2023,
- Reaching 150 thousand employees including our subsidiaries,
- Doubling the transported cargo volume and positioning Turkish Cargo among the top three cargo carriers globally by 2033; leveraging the capabilities of our cargo hub, SmartIST, which is one of the largest air cargo terminals in the world,
- Establishing our low-cost arm AnadoluJet as a separate subsidiary; repositioning its brand, restructuring its revenue and cost structures, and reaching a fleet size of 200 new generation aircraft to strengthen its competitive positioning,
- Improving customer experience and brand recognition by:
 - Providing each passenger, a customized service across all service channels
 - Completing cabin transformation to enhance in-flight experience
 - Growing Miles & Smiles loyalty program further and increasing the number of active members
 - Ranking among the top 3 airlines globally in providing the best digital experience by implementing new projects in digital transformation
- To become a sustainable airline by:
 - Increasing the number of new generation aircraft in the fleet
 - Increasing the consumption of sustainable aviation fuel
 - Expanding the number of LEED certified buildings to boost renewable energy usage
 - Becoming a "Carbon Neutral" airline by 2050 through the implementation of carbon emission offsetting projects.

Together with its subsidiaries, employing more than 75,000 people, Turkish Airlines will continue to proudly fly Türkiye's national flag in the coming 10 years with its unique network, modern fleet and remarkable financial performance.

**BOARD ACTIVITY REPORT
PURSUANT TO THE COMMNIQUE SERIAL II. NO.14.1****S&P Credit Rating Update**

International Credit Agency Standard & Poor's (S&P) affirmed long-term issuer credit rating of Turkish Airlines as "B" and revised the outlook as negative.

12. PROJECTIONS ABOUT THE INCORPORATION

Turkish Airlines decided to begin operating scheduled flights to cities including Abha (Saudi Arabia), Aswan (Egypt), Makhachkala (Russia), La Coruna (Spain), Lenkeran (Azerbaijan), Nantes (France), Port Sudan (Sudan), Atyrau (Kazakhstan), Sialkot (Pakistan), Hargeisa (Somalia), Denver and Detroit (United States of America) and Katowice (Poland) subject to aircraft availability and market conditions. The opening dates of these new destinations by the Incorporation are being evaluated in line with market conditions.

Turkish Airlines flies to more countries than any other airline in the world and is one of the leading airlines in the aviation industry's recovery. The Incorporation developed a strategic roadmap for 2033 to sustain growth post-pandemic and create significant value for all stakeholders. The plan includes enhancing the passenger experience, advancing digitalization, and committing to sustainability, with goals to double the number of aircraft and passengers. This strategy involves expanding the fleet to 800 aircraft by 2033 and increasing passenger capacity 2.8 times compared to 2022. The Incorporation is also repositioning Anadolujet to strengthen market share by combining its low-cost structure with increased competitiveness. Providing a wide flight network and high connectivity, Turkish Airlines aims to expand its international destinations to 345 by 2033, more than doubling passenger numbers from 2022, thus enhancing connectivity and competitiveness.

Under the 10-year strategy, Turkish Cargo is set to multiply its cargo volume by 2.3 times that of 2022, capitalizing on the capabilities of SMARTIST at Istanbul Airport, one of the world's largest hubs equipped with high technology, and Turkish Airlines' uniquely expansive flight network. Turkish Cargo plans to increase cargo flight destinations from 104 in 2022 to 150 in 2033 aiming to become one of the top three air cargo brands in market share and service quality.

Aligned with the 2033 strategy, the Incorporation is focused on delivering integrated and customized services across all passenger channels, aiming to be among the global top three in digital experience.

**BOARD ACTIVITY REPORT
PURSUANT TO THE COMMNIQUE SERIAL II. NO.14.1**

In addition to operational growth targets, the Incorporation is committed to a sustainable future by aiming to have 75% of fleet consist of new generation aircraft by 2033 and reduce fuel consumption by 5% through operational improvements. As a member of IATA, Turkish Airlines adopts targets to reduce carbon emissions from aviation and is dedicated to achieving these targets. Firm steps are being taken towards becoming a “carbon-neutral” airline by 2050, increasing the use of Sustainable Aviation Fuel (SAF) across more frequencies and destinations.
