2. BASIS OF PRESENTATION OF FINANCIAL STATEMENTS

2.1 Basis of Presentation

Statement of Compliance

The condensed consolidated interim financial statements as at and for the nine-month period ended 30 September 2023 have been prepared in accordance with IAS 34 "Interim Financial Reporting". They do not include all of the information required for complete annual financial statements and should be read in conjunction with the consolidated financial statements of the Group as at and for the year ended 31 December 2022.

The Board of Directors has approved the condensed consolidated interim financial statements as of 30 September 2023 on 1 November 2023. General Assembly and the related regulatory bodies have the authority to modify the statutory financial statements.

Basis of Preparation

The consolidated financial statements, except for some financial instruments that are stated at fair value, have been prepared on the historical cost basis. Historical cost is generally based on the fair value of the consideration given in exchange for goods or services.

Notes to the Condensed Consolidated Interim Financial Statements

As At And For the Nine-Month Period Ended 30 September 2023

(All amounts are expressed in Million US Dollars (USD) unless otherwise stated.)

2. BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (cont'd)

2.1 Basis of Presentation (cont'd)

Functional and Reporting Currency

Functional currency

The consolidated financial statements of the Group are presented in USD, which is the functional currency of the Group.

Although the currency of the country in which the Group is domiciled is Turkish Lira (TL), the Group's functional currency is determined as USD. USD is used to a significant extent in, and has a significant impact on the operations of the Group and reflects the economic substance of the underlying events and circumstances relevant to the Group. Therefore, the Group uses the USD in measuring items in its financial statements and as the functional currency. All currencies other than those selected for measuring items in the consolidated financial statements are treated as foreign currencies. Accordingly, transactions and balances not already measured in USD have been remeasured in USD in accordance with the relevant provisions of IAS 21 *the Effects of Changes in Foreign Exchange Rates*.

IAS 29 *Financial Reporting in Hyperinflation Economy* requires the financial statements of an entity with a hyperinflationary functional currency to be restated for the changes in the general pricing power of the functional currency. The Group uses the USD to measure items in its financial statements and the USD as the functional currency. Therefore, no adjustments have been made for hyperinflation according to IAS 29.

According to the Türkiye local GAAP, the Group will make inflation adjustments in its tax-based statutory financial statements on December 31, 2023, in accordance with the temporary article 33 of Law No. 213, and evaluates the effects of these adjustments on IAS/IFRS based financial statements.

Except where otherwise indicated, all amounts disclosed in financial statements and notes are rounded the nearest million (USD 000,000).

Basis of Consolidation

- a. The consolidated financial statements include the accounts of the parent company, THY, its subsidiaries and its joint ventures on the basis set out in sections (b) below. Financial statements of the subsidiaries and joint ventures are adjusted where applicable in order to apply the same accounting policies. All transactions, balances, profit and loss within the Group are eliminated during consolidation.
- b. The Group has nine joint ventures (Note: 1). These joint ventures are economical activities whereby decisions about strategic finance and operating policy are jointly made by the consensus of the Group and other investors. The joint ventures are jointly controlled by the Group and other shareholders and are accounted for using the equity method. Under the equity method, joint ventures are initially recognized at cost and adjusted to recognize any distributions received, impairments in the joint ventures and the Group's share of the profit or loss after the date of acquisition. Joint ventures' losses that exceed the Group's share are not recognized, unless the Group has incurred legal or constructive obligations on behalf of the joint venture.
- c. The non-controlling share in the assets and results of subsidiaries for the year are separately classified as "non-controlling interest" in the consolidated statements of financial position and consolidated statements of profit or loss.

Business Combinations

Business combinations are accounted for using the acquisition method at the acquisition date, which is the date on which control is transferred to the Group. Control occurs when the investor is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. In assessing control, the Group takes into consideration potential voting rights that currently are exercisable.

2. BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (cont'd)

2.1 Basis of Presentation (cont'd)

Business Combinations (cont'd)

The Group measures goodwill at the acquisition date as follows:

- the fair value of the consideration transferred; plus
- the recognized amount of any non-controlling interests in the acquire; plus
- if the business combination is achieved in stages, the fair value of the pre-existing equity interest in the acquire; less
- the net recognized amount (generally fair value) of the identifiable assets acquired and liabilities assumed.

When the excess is negative, a bargain purchase gain is recognized immediately in profit or loss.

The consideration transferred does not include amounts related to the settlement of pre-existing relationships. Such amounts generally are recognized in profit or loss.

Transaction costs, other than those associated with the issue of debt or equity securities, that the Group incurs in connection with a business combination are expensed as incurred.

2.2 Changes and Errors in Accounting Policies Estimates

The significant estimates and assumptions used in the preparation of these consolidated financial statements as at and for the period ended 30 September 2023 are consistent with those used in the preparation of the Group's consolidated financial statements as at and for the year ended 31 December 2022.

2.3 Summary of Significant Accounting Policies

The accounting policies used in preparation of condensed consolidated interim financial statements as at 30 September 2023 are consistent with those used in the preparation of consolidated statements for the year ended 31 December 2022.

2.4 New and Revised Standards and Interpretations

a) Standards, amendments, and interpretations applicable as of 30 September 2023:

Narrow scope amendments to IAS 1, Practice statement 2 and IAS 8; effective from annual periods beginning on or after 1 January 2023. The amendments aim to improve accounting policy disclosures and to help users of the financial statements to distinguish between changes in accounting estimates and changes in accounting policies.

Amendment to IAS 12 – Deferred tax related to assets and liabilities arising from a single transaction; effective from annual periods beginning on or after 1 January 2023. These amendments require companies to recognise deferred tax on transactions that, on initial recognition give rise to equal amounts of taxable and deductible temporary differences.

Amendment to IAS 12 - International tax reform - pillar two model rules; The deferred tax exemption and disclosure of the fact that the exception has been applied, is effective immediately. The other disclosure requirements are effective annual periods beginning on or after 1 January 2023. These amendments give companies temporary relief from accounting for deferred taxes arising from the Organisation for Economic Co-operation and Development's (OECD) international tax reform. The amendments also introduce targeted disclosure requirements for affected companies. The Group evaluates the effects of this reform on the financial statements.

2.4 New and Revised Standards and Interpretations (cont'd)

b) **Standards, amendments, and interpretations that are issued but not effective as of 30 September 2023:**

Amendment to IAS 1 – Non current liabilities with covenants; effective from annual periods beginning on or after 1 January 2024. These amendments clarify how conditions with which an entity must comply within twelve months after the reporting period affect the classification of a liability.

Amendment to IFRS 16 – Leases on sale and leaseback; effective from annual periods beginning on or after 1 January 2024. These amendments include requirements for sale and leaseback transactions in IFRS 16 to explain how an entity accounts for a sale and leaseback after the date of the transaction. Sale and leaseback transactions where some or all the lease payments are variable lease payments that do not depend on an index or rate are most likely to be impacted.

Amendments to IAS 7 and IFRS 7 on Supplier finance arrangements; effective from annual periods beginning on or after 1 January 2024. These amendments require disclosures to enhance the transparency of supplier finance arrangements and their effects on a company's liabilities, cash flows and exposure to liquidity risk. The disclosure requirements are the IASB's response to investors' concerns that some companies' supplier finance arrangements are not sufficiently visible, hindering investors' analysis.

Amendments to IAS 21 - Lack of Exchangeability; effective from annual periods beginning on or after 1 January 2025. An entity is impacted by the amendments when it has a transaction or an operation in a foreign currency that is not exchangeable into another currency at a measurement date for a specified purpose. A currency is exchangeable when there is an ability to obtain the other currency (with a normal administrative delay), and the transaction would take place through a market or exchange mechanism that creates enforceable rights and obligations.

IFRS S1, 'General requirements for disclosure of sustainability-related financial information; effective from annual periods beginning on or after 1 January 2024. This is subject to endorsement of the standards by local jurisdictions. This standard includes the core framework for the disclosure of material information about sustainability-related risks and opportunities across an entity's value chain.

IFRS S2, 'Climate-related disclosures'; effective from annual periods beginning on or after 1 January 2024. This is subject to endorsement of the standards by local jurisdictions. This is the first thematic standard issued that sets out requirements for entities to disclose information about climate-related risks and opportunities.

2.5 Determination of Fair Values

Various accounting policies and explanations of the Group necessitate to determine the fair value of both financial and non-financial assets and liabilities. If applicable, additional informations about assumptions used for the determination of fair value are presented in notes particular to assets and liabilities.

Evaluation methods in terms of levels are described as follows:

- Level 1: Quoted (unadjusted) prices in active markets for identical assets and obligations.
- Level 2: Variables obtained directly (via prices) or indirectly (by deriving from prices) which are observable for similar assets and liabilities other than quoted prices mentioned in Level 1.
- Level 3: Variables, which are not related to observable market variable for assets and liabilities (unobservable variables).

2.6 Going Concern

The Group has prepared its consolidated financial statements with the assumption on the Group's ability to continue its operations in the foreseeable future as a going concern.

2.7 Other

Earthquakes in Türkiye

In order to alleviate the impact of social and economic consequences of the consecutive earthquakes which took place on February 6, 2023; passenger and cargo flights were carried out free of charge, a cash donation of USD 107 (TL 2,000) was made and it was decided by the Board of Directors to pursue all necessary work and procedures for the construction of 1,000 homes to be built in the earthquake-affected region. In addition to that, the earthquake does not have a significant impact on the Group's continuing operations.

16. EMPLOYEE BENEFITS

Provisions for retirement pay liability as of 30 September 2023 and 2022 are comprised of the following:

	30 September 2023	31 December 2022
Provision for retirement pay liability	<u>230</u>	<u>273</u>

Under Labor Law, effective in Türkiye, it is an obligation to make legal retirement pay to employees whose employment is terminated in certain ways.

Retirement pay liability is subject to an upper limit of monthly USD 856 (full) (equivalent of TL 23,490 (full)) as of 30 September 2023. (31 December 2022: USD 821 (full) equivalent to TL 15,371 (full)).

Retirement pay liability is not subject to any funding legally. Provisions for retirement pay liability are calculated by estimating the present value of probable liability that will arise due to the retirement of employees.

IAS 19 (“Employee Benefits”) stipulates the progress of the Group’s liabilities by use of actuarial valuation methods under defined benefit plans. Actuarial assumptions used in calculation of total liabilities are described as follows:

The critical assumption is that the maximum liability amount increases in accordance with the inflation rate for every service year. Provisions in the accompanying consolidated financial statements as of 30 September 2023 are calculated by estimating the present value of liabilities due to the retirement of employees. Provisions in the relevant balance sheet dates are calculated with the assumptions of 10.08% annual inflation rate (31 December 2022: 10.08%) and 10.62% interest rate (31 December 2022: 10.62%). Estimated amount of non-paid retirement pay retained in the Group due to voluntary leaves is assumed as 2.34% (31 December 2022: 2.40%). Ceiling for retirement pay is revised semi-annually. Ceiling amount of USD 856 (full) (equivalent to TL 23,490 (full)) which has been in effect since 1 July 2023, is used in the calculation of the Group’s provision for retirement pay liability.

Movement in the provisions for retirement pay liability is as follows:

	1 January - 30 September 2023	1 January - 30 September 2022
Provision at the beginning of the period	273	113
Service charge for the period	38	33

(*) In accordance with the Capital Market Board's Communique II-22.1 on treasury shares and the related announcement dated 14.02.2023, in order to contribute to the fair price formation of Company's share, Board of Directors of THY A.O. decided to launch a Share Buy-back program covering 3 calendar years and to allocate a maximum of USD 480 (TL 9,000) for treasury shares from Company's cash portfolio, while limiting the number of shares that may be subject to buy-back be at most 5% of the issued share capital. According to share buy-back program, company purchased 4,704,044 shares with the amount of USD 33 as of 30 September 2023.

(**) Inflation adjustment on share capital represents inflation uplift of historical capital payments based on inflation indices until 31 December 2004.

As of 30 September 2023, the Registered paid-in share capital of the Company comprised 137,999,999,999 Class A shares and 1 Class C share, all with a par value of Kr 1 each. The Class C share belongs to the Republic of Türkiye Treasury and Finance Ministry Privatization Administration and has the following privileges:

- Articles of Association 7: Positive vote of the board member representing class C share with the Board's approval is necessary for transfer of shares issued to the name.
- Articles of Association 10: The Board of Directors consists of nine members of which one member has to be nominated by the class C shareholder and the other eight members must be elected by class A shareholders.
- Articles of Association 14: The following decisions of the Board of Directors are subject to the positive vote of the class C Shareholder:
 - a) Decisions that will negatively affect the Group's mission, Defined in Article 3.1. of the Articles of Association,
 - b) Suggesting change in the Articles of Association at General Assembly,
 - c) Increasing share capital,
 - d) Approval of transfer of the shares issued to the name and their registration to the "Share Registry",
 - e) Every decision or action which directly or indirectly puts the Group under commitment over 5% of its total assets of the latest annual financial statements prepared for Capital Market Board. (This sentence will expire when the Group's shares held by Turkish State decrease under 20%.)
 - f) Decisions relating to merges and liquidation,
 - g) Decisions cancelling flight routes or significantly reduce the frequency of flight routes, not including the ones that cannot even recover their operational expenses, subject to the market conditions.

Restricted Profit Reserves

Turkish Commercial Code (TCC) stipulates that the general legal reserve is appropriated out of statutory profits at the rate of 5% per annum, until the total reserve reaches 20% of the Group's paid-in share capital. Additionally, not limited with 20% of paid-in share capital, the general legal reserve is appropriated at the rate of 10% per annum of all cash dividends in excess of 5% of the paid-in share capital. Under TCC, the legal reserves can only be used to offset losses, to sustain business when conditions worsen, to prevent unemployment and are not available for any other usage unless they exceed 50% of paid-in share capital.

In accordance with Article 520 of the Turkish Commercial Code, the Group is required to allocate a reserve fund in an amount that covers the purchase value for its own shares purchased.

Foreign Currency Translation Differences

Currency translation differences under equity arise from Group's joint ventures, provisions for unused vacation, legal claims and retirement pay liability accounted under the equity method, which have functional currencies other than USD.

Distribution of Dividends

Listed companies distribute dividend in accordance with the Communiqué No. II-19.1 issued by the CMB, which is effective from 1 February 2014.

Companies distribute dividends in accordance with their dividend payment policies settled and dividend payment decision taken in general assembly in accordance with relevant legislations. The communiqué does not constitute a minimum dividend rate. Companies distribute dividend in accordance with their dividend policy or articles of associations. In addition, dividend can be distributed by fixed or variable installments and advance dividend can be paid in accordance with profit on the financial statements of the Group.

Actuarial Differences on Defined Benefit Plans

According to IAS 19, all actuarial differences are recognized in other comprehensive income.

Gains/Losses from Cash Flow Hedges

Hedge gain/losses against cash flow risk arise from the accounting of the changes in the fair values of effective derivative financial instruments designated against financial risks of future cash flows under equity. Total of deferred gain/loss arising from hedging against financial risk is accounted in profit or loss when the hedged item impacts profit or loss.

As of 2023, lease liabilities and investment borrowings in Japanese Yen, Swiss Franc and Euro for investment financing are designated as cash flow hedge against exchange rate risk due to highly probable future same foreign currency revenues. Group's revenue denominated in Euro and Swiss Franc fully covered borrowings of such foreign currency, while Japanese Yen revenue covered %89 of borrowings. In this context, exchange differences arising from such these loans repayment are taken to equity and recognized in other comprehensive income.

Corporate Tax

With the "Law on Amendments to the Decree Law No. 375" published in the official gazette of the Republic of Türkiye dated July 15, 2023, the corporate tax rate has been increased from 20% to 25%, and the corporate tax rate is applied with a 5-point discount on the earnings of exporting institutions derived exclusively from exports. This rate has come into force to be applied to corporate earnings for accounting periods starting from January 1, 2023 and declarations that must be submitted as of October 1, 2023. The corporation tax rate is applied to net income of the companies after adjusting for certain disallowable expenses, exempt income and allowances. The corporation tax rate is applied to net income of the companies after adjusting for certain disallowable expenses, exempt income and allowances.

Turkish tax legislation does not permit a parent company and its subsidiaries to file a consolidated tax return. Therefore, tax liabilities, as reflected in these consolidated financial statements, have been calculated on a separate-entity basis.

25. TAX ASSETS AND LIABILITIES (cont'd)

Deferred Tax

The Group recognizes deferred tax assets and liabilities based upon temporary differences between its financial statements as reported for IFRS purposes and its statutory tax financial statements. These differences usually result in the recognition of revenue and expenses in different reporting periods for IFRS and tax purposes, which are given below.

In Türkiye, the companies cannot declare a consolidated tax return; therefore, subsidiaries with deferred tax assets were not netted off against subsidiaries with deferred tax liabilities position and they are disclosed separately.

Breakdown of the deferred tax assets / (liabilities) is as follows:

26. EARNINGS PER SHARE

Earnings per share disclosed in the consolidated profit or loss and other comprehensive income are determined by dividing the net income by the weighted average number of shares that have been outstanding during the relevant period.

In Türkiye, companies can increase their share capital by making a pro-rata distribution of shares (“bonus interest”) to existing shareholders from retained earnings. For earnings per share computations, such bonus shares are regarded as issued shares. Accordingly, the weighted average number of shares outstanding during the years has been adjusted in respect of bonus shares issued without a corresponding change in resources, by giving them retroactive effect for the period in which they were issued and for each earlier year.

(*) Net foreign exchange position of the Group is mainly due to long term foreign currency borrowings denominated in Euro, Japanese Yen and Swiss Franc to fund its aircraft investments. The Group uses these long-term foreign currency borrowings to manage the risk of exchange differences with highly probable future foreign currency revenues. The USD equivalent of these borrowings amounts to USD 7,702 as of 30 September 2023 (31 December 2022: USD 7,679).

(**) EUR amount equivalent to USD 3,686 represents the currency protected time deposit (31 December 2022: None).

28. NATURE AND LEVEL OF RISKS DERIVING FROM FINANCIAL INSTRUMENTS (cont'd)

Foreign currency risk management (cont'd)

The Group is exposed to foreign exchange risk primarily from TL, EURO, JPY and CHF. The following table details the Group's sensitivity to a 10% increase and decrease in TL, EURO, JPY and CHF against USD. 10% is the sensitivity rate used when reporting foreign currency risk internally to key management and represents management's assessment of the possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the period end for a 10% change in foreign currency rates. The sensitivity analysis includes external loans as well as loans to foreign operations within the Group where the denomination of the loan is in a currency other than the currency of the lender or the borrower. A positive number indicates an increase in profit or loss with the same effect on equity. The Group accounted for investment loans and aircraft financial liabilities in the scope of cash flow hedge accounting and foreign exchange income/expense arising from these loans and liabilities are recognized in equity. 10% increase and decrease effect of foreign exchange rates are calculated with the same method and the calculated foreign exchange gains/losses are presented as hedged portion in the foreign exchange sensitivity table. Furthermore, the hedged portion of foreign exchange gains/losses via forwards and cross currency swap transactions is classified as the amount hedged against USD in the statement of exchange rate sensitivity analysis.
