**2. BASIS OF PRESENTATION OF FINANCIAL STATEMENTS**

**2.1 Basis of Presentation**

**Statement of Compliance**

The condensed consolidated interim financial statements as at and for the three-month period ended 31 March 2023 have been prepared in accordance with IAS 34 “Interim Financial Reporting”. They do not include all of the information required for complete annual financial statements and should be read in conjunction with the consolidated financial statements of the Group as at and for the year ended 31 December 2022.

Board of Directors has approved the condensed consolidated interim financial statements as of 31 March 2023 on 3 May 2023. General Assembly and the related regulatory bodies have the authority to modify the statutory financial statements.

## TÜRK HAVA YOLLARI ANONİM ORTAKLIĞI AND ITS SUBSIDIARIES

### Notes to the Condensed Consolidated Interim Financial Statements

As At And For the Three-Month Period Ended 31 March 2023

(All amounts are expressed in Million US Dollars (USD) unless otherwise stated.)

## 2. BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (cont'd)

### 2.1 Basis of Presentation (cont'd)

#### **Basis of Preparation**

The consolidated financial statements, except for some financial instruments that are stated at fair value, have been prepared on the historical cost basis. Historical cost is generally based on the fair value of the consideration given in exchange for goods or services.

#### **Functional and Reporting Currency**

##### **Functional currency**

The consolidated financial statements of the Group are presented in USD, which is the functional currency of the Group.

Although the currency of the country in which the Group is domiciled is Turkish Lira (TL), the Group's functional currency is determined as USD. USD is used to a significant extent in, and has a significant impact on the operations of the Group and reflects the economic substance of the underlying events and circumstances relevant to the Group. Therefore, the Group uses the USD in measuring items in its financial statements and as the functional currency. All currencies other than the currency selected for measuring items in the consolidated financial statements are treated as foreign currencies. Accordingly, transactions and balances not already measured in USD have been remeasured in USD in accordance with the relevant provisions of IAS 21 *the Effects of Changes in Foreign Exchange Rates*.

IAS 29 requires the financial statements of an entity with a functional currency that is hyperinflationary to be restated for the changes in the general pricing power of the functional currency. The Group uses the USD in measuring items in its financial statements and uses the USD as the functional currency. Therefore, no adjustments have been made for hyperinflation according to IAS 29.

Except where otherwise indicated, all amounts disclosed in financial statements and notes are rounded the nearest million (USD 000,000).

#### **Basis of Consolidation**

- a. The consolidated financial statements include the accounts of the parent company, THY, its subsidiaries and its joint ventures on the basis set out in sections (b) below. Financial statements of the subsidiaries and joint ventures are adjusted where applicable in order to apply the same accounting policies. All transactions, balances, profit and loss within the Group are eliminated during consolidation.
- b. The Group has ten joint ventures (Note: 1). These joint ventures are economical activities whereby decisions about strategic finance and operating policy are jointly made by the consensus of the Group and other investors. The joint ventures are controlled by the Group and other shareholders jointly, and are accounted for using the equity method. Under the equity method, joint ventures are initially recognized at cost and adjusted to recognize any distributions received, impairments in the joint ventures and the Group's share of the profit or loss after the date of acquisition. Joint ventures' losses that exceed the Group's share are not recognized, unless the Group has incurred legal or constructive obligations on behalf of the joint venture.
- c. The non-controlling share in the assets and results of subsidiaries for the year are separately classified as "non-controlling interest" in the consolidated statements of financial position and consolidated statements of profit or loss.

#### **Business Combinations**

Business combinations are accounted for using the acquisition method as at the acquisition date, which is the date on which control is transferred to the Group. Control occurs when the investor is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. In assessing control, the Group takes into consideration potential voting rights that currently are exercisable.

## **2. BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (cont'd)**

### **2.1 Basis of Presentation (cont'd)**

#### **Business Combinations (cont'd)**

The Group measures goodwill at the acquisition date as:

- the fair value of the consideration transferred; plus
- the recognized amount of any non-controlling interests in the acquire; plus
- if the business combination is achieved in stages, the fair value of the pre-existing equity interest in the acquire; less
- the net recognized amount (generally fair value) of the identifiable assets acquired and liabilities assumed.

When the excess is negative, a bargain purchase gain is recognized immediately in profit or loss.

The consideration transferred does not include amounts related to the settlement of pre-existing relationships. Such amounts generally are recognized in profit or loss.

Transaction costs, other than those associated with the issue of debt or equity securities, that the Group incurs in connection with a business combination are expensed as incurred.

### **2.2 Changes and Errors in Accounting Policies Estimates**

The significant estimates and assumptions used in preparation of these consolidated financial statements as at and for the period ended 31 March 2023 are consistent with those used in the preparation of the Group's consolidated financial statements as at and for the year ended 31 December 2022.

### **2.3 Summary of Significant Accounting Policies**

The accounting policies used in preparation of condensed consolidated interim financial statements as at 31 March 2023 are consistent with those used in the preparation of consolidated statements for the year ended 31 December 2022.

### **2.4 New and Revised Standards and Interpretations**

#### **a) Standards, amendments and interpretations applicable as at 31 March 2023:**

**A number of narrow-scope amendments to IFRS 3, IAS 16, IAS 37 and some annual improvements on IFRS 1, IFRS 9, IAS 41 and IFRS 16;** effective from annual periods beginning on or after 1 January 2022.

- **Amendments to IFRS 3**, 'Business combinations' update a reference in IFRS 3 to the Conceptual Framework for Financial Reporting without changing the accounting requirements for business combinations.
- **Amendments to IAS 16**, 'Property, plant and equipment' prohibit a company from deducting from the cost of property, plant and equipment amounts received from selling items produced while the company is preparing the asset for its intended use. Instead, a company will recognize such sales proceeds and related cost in profit or loss.
- **Amendments to IAS 37**, 'Provisions, contingent liabilities and contingent assets' specify which costs a company includes when assessing whether a contract will be loss-making.

## **2. BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (cont'd)**

### **2.4 New and Revised Standards and Interpretations (cont'd)**

#### **a) Standards, amendments and interpretations applicable as at 31 March 2023 (cont'd):**

Annual improvements make minor amendments to IFRS 1, 'First-time Adoption of IFRS', IFRS 9, 'Financial instruments', IAS 41, 'Agriculture' and the Illustrative Examples accompanying IFRS 16, 'Leases'. These amendments do not have a significant impact on the financial position and performance of the Group.

**Narrow scope amendments to IAS 1, Practice statement 2 and IAS 8;** effective from annual periods beginning on or after 1 January 2023. The amendments aim to improve accounting policy disclosures and to help users of the financial statements to distinguish between changes in accounting estimates and changes in accounting policies.

**Amendment to IAS 12 – Deferred tax related to assets and liabilities arising from a single transaction;** effective from annual periods beginning on or after 1 January 2023. These amendments require companies to recognise deferred tax on transactions that, on initial recognition give rise to equal amounts of taxable and deductible temporary differences.

**IFRS 17, 'Insurance Contracts';** effective from annual periods beginning on or after 1 January 2023. This standard replaces IFRS 4, which currently permits a wide variety of practices in accounting for insurance contracts. IFRS 17 will fundamentally change the accounting by all entities that issue insurance contracts and investment contracts with discretionary participation features.

#### **b) Standards, amendments and interpretations that are issued but not effective as at 31 March 2023:**

**Amendment to IAS 1 – Non current liabilities with covenants;** effective from annual periods beginning on or after 1 January 2024. These amendments clarify how conditions with which an entity must comply within twelve months after the reporting period affect the classification of a liability.

**Amendment to IFRS 16 – Leases on sale and leaseback;** effective from annual periods beginning on or after 1 January 2024. These amendments include requirements for sale and leaseback transactions in IFRS 16 to explain how an entity accounts for a sale and leaseback after the date of the transaction. Sale and leaseback transactions where some or all the lease payments are variable lease payments that do not depend on an index or rate are most likely to be impacted.

### **2.5 Determination of Fair Values**

Various accounting policies and explanations of the Group necessitate to determinate the fair value of both financial and non-financial assets and liabilities. If applicable, additional information about assumptions used for determination of fair value are presented in notes particular to assets and liabilities.

Evaluation methods in terms of levels are described as follows:

- Level 1: Quoted (unadjusted) prices in active markets for identical assets and obligations.
- Level 2: Variables obtained directly (via prices) or indirectly (by deriving from prices) which are observable for similar assets and liabilities other than quoted prices mentioned in Level 1.
- Level 3: Variables, which are not related to observable market variable for assets and liabilities (unobservable variables).

**2. BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (cont'd)**

**2.6 Going Concern**

The Group has prepared its consolidated financial statements with the assumption on the Group's ability to continue its operations in the foreseeable future as a going concern.

**2.7 Other**

***Russia-Ukraine Conflict***

Due to the Russia-Ukraine conflict that broke out towards the end of February 2022, Turkish airlines suspended Ukraine and Belarus flights as of February 24, 2022. The closure of the airspaces of these countries to European air carriers caused some airline companies to make route changes, while others were unable to fly to the far east region, the impact of the conflict was limited for the Group due to the geographical location of Istanbul Airport and the Russian airspace being open to Turkish carriers. The Group constantly assesses further developments.

***Consecutive Earthquakes***

In order to alleviate the impact of social and economic consequences of the consecutive earthquakes which took place on February 6, 2023; passenger and cargo flights were carried out free of charge, a cash donation of USD 107 (TL 2,000) was made and it was decided by the Board of Directors to pursue all necessary work and procedures for the construction of 1,000 homes to be built in the earthquake-affected region. In addition to that, the earthquake does not have a significant impact on the Group's continuing operations.

In March 2021, it was announced that USD LIBOR 1-week and 2-month settings ceased on 31 December 2021; US Dollar Overnight, 1-month, 3-month, 6-month and 12-month settings ceased on 30 June 2023. Due to the cessation of Swiss franc and Japanese yen LIBOR settings on December 31, 2021, replacement reference rates were determined to be SARON for Swiss franc and TONAR, TORF and TIBOR for Japanese yen denominated finance leases with a total amount of USD 815 million as of the cessation date. Approximately USD 505 million finance lease obligations will mature after the discontinuation of US dollar LIBOR settings on June 30, 2023. Discussions with the relevant finance lease lenders have been initiated in order to ensure all effected transactions include the necessary replacement rate and fallback mechanisms before the cessation date. The Group expects no material impact after the replacement of relevant rates.

**17. EMPLOYEE BENEFITS**

Provisions for retirement pay liability as of 31 March 2023 and 2022 is comprised of the following:

	<u>31 March 2023</u>	<u>31 December 2022</u>
Provision for retirement pay liability	<u>275</u>	<u>273</u>

Under Labor Law effective in Türkiye, it is an obligation to make legal retirement pay to employees whose employment is terminated in certain ways. Also, according to Article 60 of Social Security Law numbered 506 which was revised by the laws 2422, dated 6 March 1981 and numbered 4447, dated 25 August 1999, it is an obligation to make legal retirement pay to those who entitled to receive retirement pay when leaving their work. Some transfer provisions related to employment conditions prior to retirement are removed from the Law by the revise made on 23 May 2002. Retirement pay liability assumptions and calculations are changed in line with the revise made on 8 May 2008, which altered age of retirement.

Retirement pay liability is subject to an upper limit of monthly USD 1,041 (full) (equivalent of TL 19,983 (full)) as of 31 March 2023. (31 December 2022: USD 821 (full) equivalent of TL 15,371 (full)).

Retirement pay liability is not subject to any funding legally. Provisions for retirement pay liability are calculated by estimating the present value of probable liability that will arise due to retirement of employees.

IAS 19 (“Employee Benefits”) stipulates the progress of the Group’s liabilities by use of actuarial valuation methods under defined benefit plans. Actuarial assumptions used in calculation of total liabilities are described as follows:

The key assumption is that maximum liability amount increases in accordance with the inflation rate for every service year. Provisions in the accompanying consolidated financial statements as of 31 March 2023 are calculated by estimating present value of liabilities due to retirement of employees. Provisions in the relevant balance sheet dates are calculated with the assumptions of 10.08% annual inflation rate (31 December 2022: 10.08%) and 10.62% interest rate (31 December 2022: 10.62%). Estimated amount of non-paid retirement pay retained in the Group due to voluntary leaves is assumed as 2.25% (31 December 2022: 2.40%). Ceiling for retirement pay is revised semi-annually. Ceiling amount of USD 1,041 (full) (equivalent of TL 19,983 (full)) which is in effect since 1 January 2023 is used in the calculation of Group’s provision for retirement pay liability.

Movement in the provisions for retirement pay liability is as follows:

	<u>1 January - 31 March 2023</u>	<u>1 January - 31 March 2022</u>
Provision at the beginning of the period	273	113
Service charge for the period	8	3

#### **19. SHAREHOLDERS' EQUITY (cont'd)**

##### **Restricted Profit Reserves**

Turkish Commercial Code (TCC) stipulates that the general legal reserve is appropriated out of statutory profits at the rate of 5% per annum, until the total reserve reaches 20% of the Group's paid-in share capital. Additionally, not limited with 20% of paid-in share capital, the general legal reserve is appropriated at the rate of 10% per annum of all cash dividends in excess of 5% of the paid-in share capital. Under TCC, the legal reserves can only be used to offset losses, to sustain business when conditions get worse, to prevent unemployment and are not available for any other usage unless they exceed 50% of paid-in share capital.

##### **Foreign Currency Translation Differences**

Currency translation differences under equity arise from Group's joint ventures, provisions for unused vacation, legal claims and retirement pay liability accounted under equity method which have functional currencies other than USD.

##### **Distribution of Dividends**

Listed companies distribute dividend in accordance with the Communiqué No. II-19.1 issued by the CMB which is effective from 1 February 2014.

Companies distribute dividends in accordance with their dividend payment policies settled and dividend payment decision taken in general assembly in accordance with relevant legislations. The communiqué does not constitute a minimum dividend rate. Companies distribute dividend in accordance with their dividend policy or articles of associations. In addition, dividend can be distributed by fixed or variable installments and advance dividend can be paid in accordance with profit on financial statements of the Group.

##### **Actuarial Differences on Defined Benefit Plans**

According to IAS 19, all actuarial differences are recognized in other comprehensive income.

##### **Gains/Losses from Cash Flow Hedges**

Hedge gain/losses against cash flow risk arise from the accounting of the changes in the fair values of effective derivative financial instruments designated against financial risks of future cash flows under equity. Total of deferred gain/loss arising from hedging against financial risk are accounted in profit or loss when the hedged item impacts profit or loss.

As of 2023, lease liabilities and investment borrowings in Japanese Yen, Swiss Frank and Euro for investment financing are designated as cash flow hedge against exchange rate risk due to highly probable future same foreign currency revenues. Group's revenue denominated in Euro and Swiss Frank fully covered borrowings of such foreign currency, while Japanese Yen revenue covered %81 of borrowings. In this context, exchange differences arising from such these loans repayment are taken to equity and recognized in other comprehensive income.

**Corporate Tax**

Turkish tax legislation does not permit a parent company and its subsidiaries to file a consolidated tax return. Therefore, tax liabilities, as reflected in these consolidated financial statements, have been calculated on a separate-entity basis.

As of 31 March 2023, the corporate tax rate is 20% in Türkiye (December 31, 2022: 23%). Corporation tax rate is applied to net income of the companies after adjusting for certain disallowable expenses, exempt income and allowances.

**26. TAX ASSETS AND LIABILITIES (cont'd)**

*Deferred Tax*

The Group recognizes deferred tax assets and liabilities based upon temporary differences arising between its financial statements as reported for IFRS purposes and its statutory tax financial statements. These differences usually result in the recognition of revenue and expenses in different reporting periods for IFRS and tax purposes and they are given below.

In Türkiye, the companies cannot declare a consolidated tax return; therefore, subsidiaries that have deferred tax assets position were not netted off against subsidiaries that have deferred tax liabilities position and they are disclosed separately.

Deferred tax assets and liabilities are calculated with 20% tax rate for those which will be realized 2023 and onwards.

Breakdown of the deferred tax assets / (liabilities) is as follows:

	<u>31 March 2023</u>	<u>31 December 2022</u>

**27. EARNINGS PER SHARE**

Earnings per share disclosed in the consolidated profit or loss and other comprehensive income is determined by dividing the net income by the weighted average number of shares that have been outstanding during the relevant period.

In Türkiye, companies can increase their share capital by making a pro-rata distribution of shares (“bonus interest”) to existing shareholders from retained earnings. For the purpose of earnings per share computations, such bonus shares are regarded as issued shares. Accordingly, the weighted average number of shares outstanding during the years has been adjusted in respect of bonus shares issued without a corresponding change in resources, by giving them retroactive effect for the period in which they were issued and for each earlier year.

**29. NATURE AND LEVEL OF RISKS DERIVING FROM FINANCIAL INSTRUMENTS (cont'd)**

*Foreign currency risk management (cont'd)*

The Group is exposed to foreign exchange risk primarily from TL, EURO, JPY and CHF. The following table details the Group's sensitivity to a 10% increase and decrease in TL, EURO, JPY and CHF against USD. 10% is the sensitivity rate used when reporting foreign currency risk internally to key management and represents management's assessment of the possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the period end for a 10% change in foreign currency rates. The sensitivity analysis includes external loans as well as loans to foreign operations within the Group where the denomination of the loan is in a currency other than the currency of the lender or the borrower. A positive number indicates an increase in profit or loss with a same effect on equity. The Group accounted investment loans and aircraft financial liabilities in scope of cash flow hedge accounting and foreign exchange income/expense arising from these loans and liabilities are recognized in equity. 10% increase and decrease effect of foreign exchange rates are calculated with the same method and the calculated foreign exchange gains/losses are presented as hedged portion in the foreign exchange sensitivity table. Furthermore, the hedged portion of foreign exchange gains/losses via forwards and cross currency swap transactions is classified as the amount hedged against USD in the statement of exchange rate sensitivity analysis.
